

Profile

Goals

The Campus of Excellence is a unique initiative of around 100 business companies, institutions, organisations, universities and schools. It provides a platform for the systematic networking of exceptional emerging talent with business companies, advances the exchange of knowledge and initiates projects on pivotal future subjects in the fields of education, work and values. Since the foundation of the initiative in 2005, over 640 high-achieving school and university students have participated in such projects.

Tools

- **Student project “Future M.I.N.T.”**
Five-year programme for students as an orientation aid in the selection of studies and careers in the M.I.N.T. subjects (mathematics, informatics, natural sciences, technology)
- **“Praxis Academy”**
Project work for student teams in companies over several weeks
- **Alumni Association**
Network for graduates, sponsors and partners
- **Mentoring**
Comprehensive mentoring programmes for school and university students and career beginners
